

ISBS 2015

Environmental Pollution Control and Auditing

Global Climate Change
Air / Water / Soil / Noise Pollution
Ecological Pollution
Conservation of Resources
Biological Diversity
Waste Management

Sustainable Buildings and Environment

Sustainability of Structural Analysis
Sustainability of Steel and Timber Structure
Sustainable Structures Under Natural Hazards
Transportation Infrastructure and Sustainable Development
Sustainability in Geotechnical Engineering
Sustainable Building Materials
Sustainable Design Approaches
Coastal-Port Engineering
Water Resources
Sustainable Approaches to Coastal Management
Construction and Management of Sustainable Buildings
Engineering Geology
Sustainable Approaches to Materials and Construction
Systems
Seismology

Sustainable Planning

Sustainability – Urban / Rural Planning Interaction
Urbanization and Environmental Problems
Rehabilitation of Urban Areas
Urban Transformation
Cultural-Historical Heritage and Environment
Landscape Planning

Energy and Environment

Energy Efficient Building Design and Production
Microclimate Auditing
Building Performance Assessment
Renewable Energy Resources
Life Cycle Assessment
Environmental Product Declarations
Simulation Programs

Environmental Policies and Practices

Environmental Sciences and Technologies
Environmental Consciousness and Information Systems
Environment and Human Health
Act, Regulation, Strategy, Principle and Standards
Environmental Economy / Training / Management / Law
Local Authorities and Environment
Environmental Aspect in International Relations

28-30 MAY 2015
