

NTE213- COASTAL ZONE MANAGEMENT

TERM PROJECT GUIDELINES FOR 2018-19 SPRING TERM

1. An article related with climate change from Guardian newspaper is your term project baseline. Guardian is free on the internet and has a free application for ios and android, so you can access the online version as well.
 - a) You are supposed to prepare a 10 minute powerpoint presentation about this article, which is about 10-15 slides at most. One of your slides should contain a 1-2 minute video relating to your article.
 - b) Prepare and submit one page work which includes **five highlights** of the article. Highlights are **one-two sentences bullets**, where you state the most striking parts of the article.
 - c) Prepare **three questions** related with the highlights of your article. Selected questions from your work will be asked in the **final exam**.
2. You should submit your work on the presentation date which is 14th of May. Attach a print-out copy of your article to your submission.
